Next.js, Supabase, Vercel,
Claude Code, Codex

DATA & ANALYTICS

Excel (intermediate),
SQL (basic), Power BI (basic)

OTHER

Process automation,
AI-assisted development

SOFT SKILLS

Cold outreach, Event project
management, Working under
deadline pressure

Profile

Management student at Universidade do Minho with hands-on experience in e-commerce development, internal tooling, and event operations. I build production software for real clients (VTEX, Shopify, Next.js, Supabase) and lead external relations for a student-run agency connecting companies with the university. Seeking opportunities at strategy- or innovation-driven companies.

Education

BSc in Management

2025 – PRESENT

In progress

Universidade do Minho — Escola de
Economia e Gestão (EEG), Braga, Portugal.

Academic Exchange

2023 – 2024

High School

Viroqua High School, Wisconsin, USA — full
academic year of immersion in U.S. school
system.

Work Experience

Developer

2024 – PRESENT

Two7 Consultoria
Remote

Two7 SalesAssistant — built a
VTEX-integrated seller performance
dashboard for an enterprise client using
Next.js 14, Supabase, and VTEX Hooks
(Phases 1 & 2 in production, Phase 3 in
development).

Two7 Tickets — developed a multi-client
helpdesk system with role-based access
serving the consultancy's full client base.

Sales Promoter

2025 – PRESENT

WOO / WTF
Braga & Guimarães
~16h/week

Direct customer engagement and sales
conversion in retail environment.

Student Involvement

External Relations Member

2025 – PRESENT

ACE Junior Agency
Universidade do Minho

Student-run Junior Agency producing
corporate events that connect EEG/UMinho
students with companies.

Lead end-to-end event execution: ideation,
scheduling, corporate outreach, venue
booking, and on-site logistics.

**Manage relationships with 30+ corporate
partners**, including outreach, negotiation, and
ongoing communication.

Built the ACE Outreach Tool — internal
platform (Claude Code, Codex) used by the
External Relations team to coordinate
partnerships and event logistics end-to-end.

**Co-organized the AI Productivity
Workshop @ EEG / UMinho** (January 2026),
the lab's flagship event.

Designed and delivered curriculum on
generative AI, governed agents, and practical
business applications.

Reached 110+ participants across in-person
and livestream — one of the largest
student-led AI events at the university.
